#### 1 Uvod

U ovom dokumentu prikazujemo dizajn sistema uz pomoć UML (engl.	Unified
Modeling Language) dijagrama navedenih u nastavku:	
□ Use case dijagram	
□ Activity dijagram	

#### 1.1 Svrha dokumenta

 $\square$  Entity relationship dijagram

Svrha ovog dokumenta jeste prikaz odgovarajućih interakcija korisnika sa sistemom te prikaz odnosa između pojedinih komponenti sistema. Svi dijagrami, prikazani u ovom dokumentu, su bazirani na zahtjevima koji su opisani u SRS dokumentu.

#### 1.2 Opseg dokumenta

U dokumentu se javljaju tri tipa dijagrama:

Use case dijagram
Koristimo za opis ponašanja sistema kroz skup akcija koje korisnik može
izvršiti prilikom interakcije sa sistemom.
Activity dijagram
Koristimo za detaljan prikaz interakcija između korisnika i sistema
(svaku od interakcija moguće je prikazati korak po korak koristeći ovaj
tip dijagrama).
ER (Entity Relationship) dijagram
Koristimo za prikaz strukture baze podataka.

#### 1.3 Standardi dokumentovanja

Prilikom pisanja ovog dokumenta korištene su preporuke opisane IEEE 830-1998 standardom.

#### 2.1 Use case dijagrami

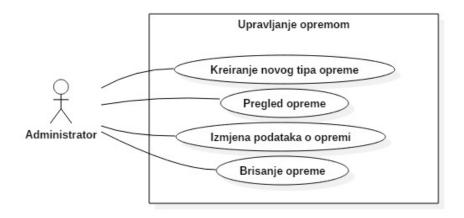

U nastavku su prikazani *use case* dijagrami za svakog od korisnika informacionog sistema.
